#### Expert Electrician is Employed by the City

F. C. Gomo, an expert electrician, recently of Badin, has been employed to have direct supervision of the city's electrical system and assumed his new duties Monday.

Mr. Gomo has had several years experience as an electrician and is regarded as an expert in his vocation. City officials feel High Point is fortunate in having secured his services.

The arrival of the new superintendent, it is believed, will help afford relief to customers who for several weeks have been unable to obtain sufficient light.

# FORD

## THE UNIVERSAL CAR

Out of the more than 3,000,000 Ford cars now in use, about sixty per cent have been sold to farmers. Probably no other one thing has brought to the farm so much of comfort and profit as has the Ford car. It has enlarged the social life, doubled the facilities for marketing, brought the town next door to the farm, multiplied for the farmer the pleasures of living, and by the same token the Ford Touring Car has brought just as much pleasure to the residents of the towns and cities, because it is an every day in the year utility, answering the demand of quick transportation at low expense. A family car without an equal in low cost of operation and maintenance. We solicit your order for one. We have the full line of Ford cars. We carry the genuine Ford Parts, and assure you the best in mechanical service and the most reasonable prices.
